

“Our partnership will significantly enhance the service we currently provide our valued, existing customer base. With Sensio’s product information now readily available, it is hoped that other retailers will also be interested in what we have to offer.”

Micheal Linsky –
Managing Director, Sensio UK Ltd

KBBLink enables you to reach your customers faster and smarter

Our secure online services enable you to increase your products’ reach, automate order taking and generate effortless sales.

Stream pricelists direct to your authorised customers. Introduce new ranges and deliver accurate information that links related products and cross sale items.

Save time and money with real-time data and information, and by receiving electronic orders in your sales processing department.

KBBLink connects the KBB industry with enhanced solutions and services

✓ **Reach retail, effortlessly**

Hundreds of KBB retailers and businesses use our KBBConnect and KBBSmart services every week.

✓ **Update pricelists in real-time**

Upload new prices and see them go live within moments, so your customers will always have up-to-the-minute data.

✓ **Promote new products**

Introduce new ranges and deliver accurate information that links related products and cross sale items.

✓ **Control pricelists**

Stream pricelists direct to authorised customers only, for your convenience and peace of mind.

✓ **Save time and money**

Retailers create their quotes direct from your latest pricelists, so costly human error is minimised.

✓ **Receive orders directly**

Receive electronic orders in your sales processing department for maximum efficiency.

✓ **Incredible value**

KBBLink is competitively priced, easy to use and fully secure.
